Figure 1 displays a series of five plots showing the profiles of  $Y-FAN$  and  $X-FAN$  at different  $X$  positions. The plots are arranged in two columns:  $Y-FAN$  on the left and  $X-FAN$  on the right. The rows correspond to  $X = 152.4, 114.3, 76.2, 38.1, 0.0$ . Each plot has a vertical axis ranging from  $-0.0200$  to  $0.0200$ . The  $Y-FAN$  profiles are relatively flat, while the  $X-FAN$  profiles show a slight upward curve, particularly at the lower  $X$  values.
